## **NORGINE LAUNCHES NEW WEB-SITE**

Norgine, the leading European Specialty Pharmaceutical company, has today announced the launch of its new web-site. The new design and upgraded content provides improved information on the company for all interested parties, be they potential partners, customers, prospective or current employees or any other stakeholders.

The new site provides many new features which it is hoped will be appreciated by all viewers. These cover areas as diverse as the company's history, employment and partnering. The company is committed to the highest standards of quality within the pharmaceutical industry, a commitment reflected in the new web-site. It is hoped that the new site will prove of interest and value to all readers and provide a valuable tool in presenting and enhancing Norgine's image to the outside world.

Norgine worked with Langland in developing and building the new site.

### **Notes to editor**

Norgine is an independent, successful European specialty pharmaceutical company that has been established for over 100 years and has a presence in all the major European markets. In 2007 Norgine's sales were €222 million, the 21st consecutive year of double-digit growth. The company employs over 1,000 people of whom 350 are in sales and marketing.

Norgine's current focus is pharmaceutical products that address significant unmet clinical need in areas such as gastroenterology, hepatology and pain management. The company currently markets a range of products in its key therapeutic areas e.g. MOVICOL® for the treatment of chronic constipation and faecal impaction, MOVIPREP® a new generation bowel cleansing preparation, KLEAN-PREP® for bowel preparation prior to colonoscopy, and ORAMORPH® for the treatment of moderate to severe pain associated with cancer.

Norgine has an active Research and Development effort and currently has products at various stages of clinical development. In addition to its site at Hengoed, Norgine also has a manufacturing site at Dreux in France.
